As rescanning documents *will not* correct images, please do not report the images to the Image Problem Mailbox.

IN THE SPECIFICATION

Please replace the paragraph at page 1, lines 6-10, with the following rewritten paragraph:

This application is a continuation of U.S. application serial number 10/194,014 filed July 15, 2002, and further claims priority under 35 U.S.C. § 119 of Japanese Patent Application No. P2000-006073, filed Jan. 11, 2000 and Japanese Patent Application No. P2000-376914, filed Dec. 12, 2000, the entire contents of ~~both~~ each of which are incorporated herein by reference.

Please add the following new paragraph at page 7, between lines 14 and 15, as follows:

FIG. 22 shows an example of a liquid crystal device including two liquid crystal devices according to another embodiment of the present invention.

Please replace the paragraph at page 22, lines 19-27, with the following rewritten paragraph:

Furthermore, the liquid crystal display device according to the present invention can be made to have two liquid crystal ~~layers~~ display devices 2201 and 2202 each having a liquid crystal layer, as shown in FIG. 22. Here, a liquid crystal layer on the far side of the user is to be denoted as a lower liquid crystal layer, and that on the near side is denoted as an upper liquid crystal layer. The lower liquid crystal layer is to display a display image as usual. The upper liquid crystal layer is made to have a plurality of regions with different orientation directions with adjacent regions arranged so that the orientation directions are different from one another. This makes the upper liquid crystal layer display a specified figure when viewed from directions other than from the front.
